

STATE LAW REQUIRES PRESSURE REGULATION FOR SPRAYS

Certified by
ICC-ES

EPA WaterSense® Approved

The Hunter Pro-Spray PRS is the first EPA WaterSense certified sprinkler body solution.

Learn more about pressure regulation.
hunter.direct/pressureregulation

Hunter Pro-Spray® PRS30 and PRS40 Sprinkler Bodies optimize pressure for standard spray nozzles and high-efficiency MP Rotator® Nozzles.

Pressure regulation saves water by controlling flow, reducing misting, and improving distribution uniformity.

- Same body across all models for easy retrofits
- Co-molded wiper seal for leak-free operation
- Easily identifiable by colored caps

PRS30
30 PSI

PRS40
40 PSI
