

PILOT COMMAND CENTER SOFTWARE

PILOT NETWORK

Pilot Command Center software (CCS) is easy to use and has all the features you need to reliably and automatically water your course. Run times can be adjusted manually or determined automatically using ET. You create watering plans directly in the Command Center — a powerful irrigation planning tool that shows you every sprinkler on the course organized according to your management style.

PILOT SPECIFICATIONS

- First-year Pilot CCS packages include a complimentary one-year membership in the Hunter Support Network (HSN) and an uninterruptible power supply
- Operating system: 64-bit Windows®
- Maximum controllers or hubs: about 1,000
- Maximum two-way module stations: about 1 million
- Sprinkler run time options: minutes, inches, millimeters, or ET
- Hydraulic management: fully customizable down to individual stations
- Mapping: interactive and based on scalable vector graphics (SVG)
