

UPGRADE TO THE PILOT® CONTROL NETWORK WITH NEW POGO® VISUAL INSIGHT INTEGRATIONS

SAVE TIME AND RESOURCES WITH GREATER CONTROL AND BETTER PLAYABILITY

Integrating the unmatched hardware and data analysis from POGO with the power and intuition of the Pilot Control Network will help you save time and maximize resources. Use the valuable insights to:

- 1 Achieve optimum irrigation efficiency with more informed scheduling adjustments using real-time soil moisture, salinity, and temperature data.
- 2 Better understand turfgrass performance between irrigation cycles.
- 3 Identify and address problem areas with color-coded graphics that highlight turf in need of immediate attention — often before symptoms appear.

Work Smarter with Daily Distribution Uniformity Audits

Get a course-wide audit every day in minutes per zone without traditional, time-consuming analysis. DU and soil EC for each zone are calculated instantly to provide a true representation of turf conditions.

Download the POGO
TurfPro Mobile App today!*

*You must have an active POGO TurfPro Cloud account to connect.

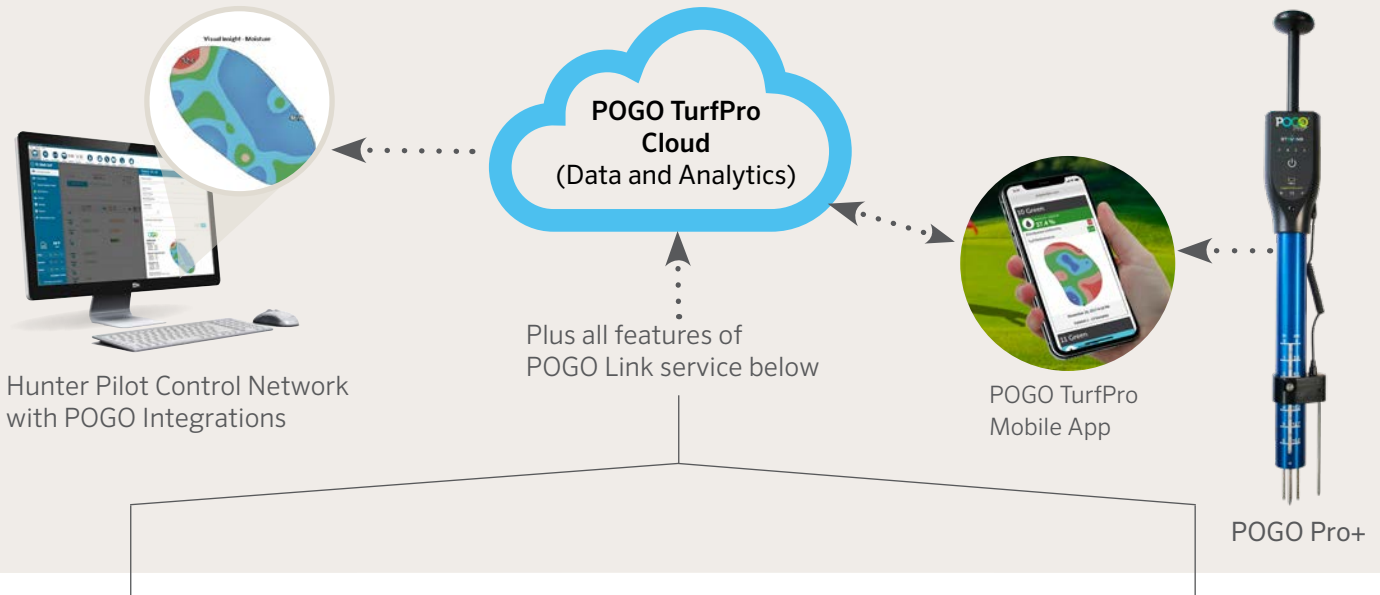

POGO Pro+

MANAGE YOUR WAY

Subscribe to the all-inclusive **POGO TurfPro Cloud** or the sensor-based **POGO Link** service to gain better visibility of your golf course irrigation efficiency.

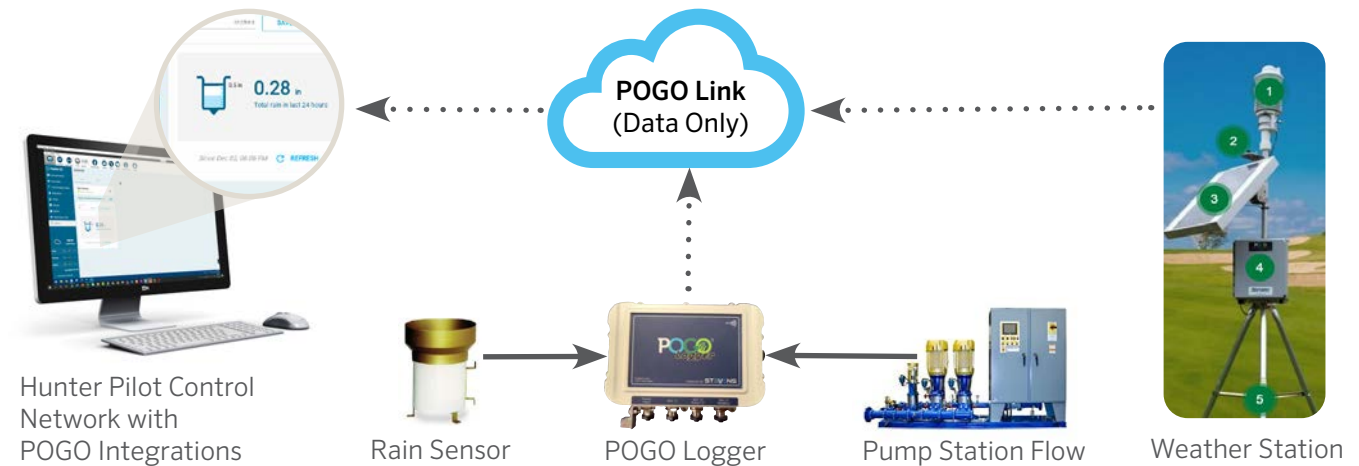

1 Data and Analytics with Advanced Visual Insights – POGO TurfPro Cloud

Proactively drive improved, consistent playability by knowing the exact conditions of your turf.

2 Data Only – POGO Link Service

Make more informed irrigation adjustments by monitoring key environmental data in real time.

Contact Hunter Golf Sales at hunter.info/golfsales.
