

# X2™ & WAND

Meet the solution for cost-sensitive projects requiring 14 zones or fewer

## KEY BENEFITS

### Contractor Management System

Hydrawise software provides the ultimate irrigation and customer management solution without having to visit the site.

Try Hydrawise software today, hardware-free at [hydrawise.com](https://hydrawise.com).

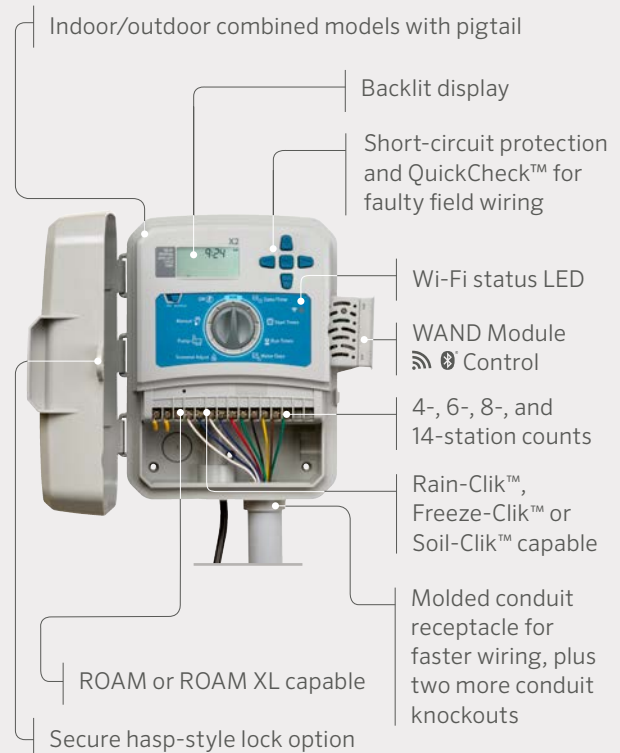

### Proven Water Saver with Predictive Watering™

Hydrawise software combines internet weather adjustments with Virtual Solar Sync daily ET measurement from weather stations for water savings up to 50% vs. a non-adjusted controller.

### Entry-Level Smart Solution

X2 is a dial-based controller upgradeable to Wi-Fi with the WAND module.

### Smart Home Voice Control

The controller is fully compatible with Amazon Alexa™, Control4®, and HomeSeer® home automation systems.

All product names, logos, and brands are property of their respective owners.

## IN THE FIELD

- Challenge:** Newly constructed homes typically lack on-site Wi-Fi access until the homeowner moves in, rendering Wi-Fi controllers impractical.

**Solution:** X2 functions as a standalone controller or as a Wi-Fi controller by adding a WAND module anytime.
- Challenge:** Tract housing developments typically have identical landscapes so irrigation schedules are all the same.

**Solution:** Minimise setup time by using the WAND module to program a schedule once. Then insert the WAND into any X2 to transfer the full irrigation schedule in seconds.

## IN THE DESIGN OFFICE

- Get a clear picture of controller activity in the event log, such as faulty wiring issues, program changes, and watering events.
- Save time at the jobsite by attaching your site plans to the controller. This allows you to quickly locate piping and valves.
- Compatible with HindSite<sup>®</sup> service software for customer alerts, marketing, and billing management. Learn more at [hunter.info/hindsite](http://hunter.info/hindsite).

*Want separate user accounts? A Hydrowise subscription plan lets you add multiple users to your account. Users only see the controllers allowed and you can prevent them from making changes.*

## X2 CONTROLLER COMPARISON

FEATURES		X2 & WAND	Competitor 1	Competitor 2
CONTROLLER	Station options	4, 6, 8, 14	4, 6, 8, 12	6, 12
